Sir:

In response to the Examiner's Office Action dated February 11, 2003, the following amendments and remarks are respectfully submitted in connection with the above-identified application.

IN THE CLAIMS:

Please amend the claims as follows:

1. (Three Times Amended) A photothermographic material comprising a support having provided on one surface thereof at least one kind of light-sensitive silver halide, a light-insensitive organic silver salt, a reducing agent for silver ions, and a binder, wherein the photothermographic material comprises a surface active agent represented by the following formula (F):
